Languages JavaScript, TypeScript, Java	Frontend React.js, Tailwind CSS, Framer Motion
Backend Node.js, Express.js, Firebase	Database Firestore, MongoDB
Tools Git, GitHub, Vercel, Netlify, Postman	Others REST APIs, Responsive Design, OAuth, UI Libraries (ShadCN, Material UI)

ACHIEVEMENTS & ACTIVITIES

Winner, Techelevate
Secured first position in a campus-wide technology innovation competition.

Selected Participant, Startup Saga
Chosen to present startup ideas among top innovators at AIT Pune.

PROJECTS

WhatsApp Clone, Tech Stack: React, Tailwind CSS, Firebase Authentication & Storage
Developed a real-time messaging application with Google Sign-In, image sharing, and active user detection. Integrated Firebase Firestore for real-time chat updates and Firebase Storage for media uploads. Designed a mobile-friendly, fully responsive UI using Tailwind CSS.

Personal Portfolio Website, Tech Stack: React, Framer Motion, Tailwind CSS
Built a modern, animated portfolio to showcase projects, skills, and UI design abilities. Integrated Framer Motion for smooth scroll, transitions, and interactive animations. Implemented responsive layouts with multiple UI libraries.
